Comparison of PREA cases between Years 2021 and 2022

The WCSO has a zero tolerance policy for sexual abuse. As such, every allegation, report and/or discovery of sexual activity is investigated as if a PREA event occurred. Only after a full investigation are events defined as PREA violation or otherwise (i.e., consensual but unauthorized sexual activity that does not qualify as PREA).

The number of PREA investigations for 2022 increased by a total of 4 compared to 2021. There was a slight increase from 1 to 2 substantiated cases, with the remaining consisting of 10 unsubstantiated cases and 10 unfounded cases. The most notable differences were found in categories pertaining to Staff Sexual Misconduct (decrease of 3), Inmate-Inmate Sexual Harassment (increase of 3), Inmate-Inmate Sexual Abuse (increase of 3), and Staff-Inmate Sexual Harassment (increase of 1).

Corrective Action

PREA standards require a review of collected data in order to identify problem areas and establish plans of corrective action. Based upon statistical data alone, there are no obvious problem areas that are not already being addressed through our efforts to achieve compliance with PREA standards and our demonstrated compliance with the last successful PREA audit in August of 2022.

Conclusion

The WCSO implemented comprehensive policy and training since the passing of the Prison Rape Elimination Act in August 2012. The Department will continue to be pro-active in its PREA training, signage and education of staff and inmates in the “zero tolerance policy”. The Department will strive as a whole to protect and insure the safety and well-being of all inmates entrusted to our custody. Also, as renovations progress, we will consistently assess plans and changes in view of PREA requirements to ensure all areas will provide appropriate provisions to be sure it will be safe as well as practical for all inmates and staff.
